REPORT OF INDEPENDENT PUBLIC ACCOUNTANTS

County Commissioners of Northumberland County
Sunbury, Pennsylvania

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Northumberland County, Pennsylvania (the County), as of and for the year ended December 31, 2014, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents. We did not audit the financial statements of the Conservation District. Those financial statements were audited by other auditors whose report thereon has been furnished to us, and our opinion, insofar as it relates to the amounts included for the component unit presentation of the Conservation District, is based on the report of the other auditors.

Management's Responsibility for the Financial Statements

The County's management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, based on our audit and the report of the other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the County, as of December 31, 2014, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, schedules of net pension liability, pension contributions, funding progress, employer contributions for the Employees Retirement Trust Fund and Retiree Health and Welfare Benefit Plan, and budgetary comparison information, as listed in the accompanying table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We and the other auditors have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County's basic financial statements. The accompanying combining and individual fund statements are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund statements are the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund statements are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

COUNTY OF NORTHUMBERLAND, PENNSYLVANIA

Management's Discussion and Analysis December 31, 2014

This management's discussion and analysis of Northumberland County's (County) financial statements is designed to introduce the basic financial statements and provide an analytical overview of the County's financial activities for the fiscal year ended December 31, 2014. The basic financial statements are comprised of the government-wide financial statements, fund financial statements, and notes to the financial statements. We hope this, in conjunction with additional information provided within the financial statements, will assist readers in identifying significant financial issues and changes in the County's financial position.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the County's basic financial statements. The County's basic financial statements are comprised of three components: **1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements.** This report also contains **4) supplementary information** in addition to the basic financial statements themselves.

1) Government-wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the County's finances, in a manner similar to a private business. The government-wide financial statements include a *statement of net position* and a *statement of activities*.

- The *statement of net position* presents information on the County's entire assets and liabilities, with the difference between the two reported as net position. Over time, increases and decreases in net position may serve as a useful indicator of whether the financial position of the County is improving or deteriorating.
- The *statement of activities* presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of these financial statements distinguish functions of the County that are principally supported by taxes and intergovernmental revenues (governmental activities) and activities from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities).

- The *governmental activities* of the County include education, general government, parks and recreation, public safety, courts, health and social services, and highway maintenance.

COUNTY OF NORTHUMBERLAND, PENNSYLVANIA

Management's Discussion and Analysis December 31, 2014

1) *Government-wide Financial Statements* (continued)

- The *business-type activities* of the County include an internal service fund.

The government-wide financial statements include not only the County itself (known as the primary government), but also include the Northumberland County Conservation District and Industrial Development Authority as a legally separate component unit and is reported separately from financial information presented for the primary government itself.

2) *Fund Financial Statements*

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The County, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the County can be divided into three categories: *governmental*, *proprietary*, or *fiduciary*.

- ***Governmental Funds***. Governmental funds are used to account for the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The County maintains twenty two individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balance for the General, Mental Health/Mental Retardation, Children and Youth, Debt Service, Act 35, Domestic Relations, Liquid Fuels, Weatherization, Adult Service, Emergency Management, Planning, Flood Mitigation, Area Agency on Aging, Drugs and Alcohol, Child Care Information Service, Juvenile Court, Affordable Housing, Records Improvement, Capital Projects, Emergency 911 Fund, Inmate Fund and Northumberland County Authority funds.

COUNTY OF NORTHUMBERLAND, PENNSYLVANIA

Management's Discussion and Analysis December 31, 2014

2) *Fund Financial Statements* (continued)

The County adopts an annual appropriated budget for all of its governmental fund budgets.

- ***Proprietary Funds.*** When the County charges customers for a service it provides, whether to outside customers or to other units of government, these services are generally reported in proprietary funds. Proprietary funds are reported in the same way that all activities are reported in the statement of net position and the statement of activities. Proprietary funds are comprised of two types: 1) *Enterprise funds* and 2) *Internal service funds*. The County does not utilize enterprise funds. Internal service funds are used to report an activity that provides supplies and services for the government's other programs and activities.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail.

- ***Fiduciary Funds.*** Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the County's own programs. The accounting used for fiduciary funds is similar to proprietary funds.

3) *Notes to the Financial Statements*

The notes to the financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Management's Discussion and Analysis December 31, 2014

4) *Supplementary Information*

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the County's progress in funding its obligation to provide pension benefits to its employees and includes budgetary comparison schedules for the general, community partnership and highway funds.

In addition to this MD&A, required supplementary information can be found on page 55-56 and 64-66 of this report.

Financial Analysis on Government-Wide Financial Statements

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the County, assets exceeded liabilities by \$11.7 million as of the close of the most recent fiscal year.

Total net position	<u>\$ 10,884,774</u>	<u>\$ 8,128,161</u>		

The largest portion of the County's net position reflects its investments in capital assets (e.g., land, roads, and bridges) of \$28.1 million; less related outstanding debt used to acquire those assets in the amount of \$11.1 million. The County uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the County's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. An additional portion of the County's net position (\$8.2 million) represent resources that are subject to external restrictions on how they may be used. The remaining unrestricted net position deficit of \$14.3 million represents liabilities that will be funded with future revenue streams.

COUNTY OF NORTHUMBERLAND, PENNSYLVANIA

Management's Discussion and Analysis December 31, 2014

Current assets decreased by \$12.5 million during the year ended December 31, 2014 as a result of the payoff of certain long term debt and negative change in net position. Capital assets increased as a result of additions offset by depreciation. Long term liabilities decreased as a result of payoff of certain debt and by scheduled payments on outstanding debt. Other liabilities decreased as a result of payments made on such items.

COUNTY OF NORTHUMBERLAND, PENNSYLVANIA

Management's Discussion and Analysis December 31, 2014

Governmental Activities (government-wide) – Change in Net Position:

Net position in governmental activities increased by \$2.8 million. Key factors in this increase are as follows:

- ❑ Operating grants and contributions decreased by \$6.4 million or 19.3% as a result of transfer of certain grant operations to non-County entities.
- ❑ Property taxes and other increased by \$2.1 million or 11.2% as result of increased millage and other factors.
- ❑ Conservation and development expenses decreased by \$2.9 million or 79% as a result of transfer of certain grant operations to non-County entities.

The County uses fund accounting to ensure and demonstrate compliance with finance related legal requirements and restrictions, and fiscal accountability.

Governmental Funds:

The focus of the County's governmental funds is to provide information on near term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the County's financing requirements. In particular, fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the County's governmental funds reported combined fund balances of \$12.8 million, a decrease of \$10.3 million in comparison with the prior year. This decrease is largely caused by payoff of a loan receivable and use of such funds to retire debt early. Approximately \$10.7 million of this amount is reserved for program purposes.

Reconciliation of the Balance Sheet- Governmental Funds to the Statement of Net Position As of December 31, 2014

Total Fund Balance, Governmental Funds \$ 12,383,532

Amounts reported for governmental activities in the statement of net position are different because:

Capital assets used in governmental activities are not current financial resources and therefore are not reported in the fund financial statements, but are reported in the governmental activities of the statement of net assets 28,096,402

Some of the County's taxes will be collected after year-end, but are not available soon enough to pay for the current period's expenditures, and therefore are not reported as deferred revenue in the funds 1,894,323

The assets and liabilities of certain internal service funds are not included in the fund financial statements, but are included in the governmental activities of the statement of net position 361,381

Long-term liabilities applicable to the County's governmental activities are not due and payable in the current period and accordingly are not reported as fund liabilities. Interest on long-term debt is not accrued in the governmental funds, but rather is recognized as an expenditure when due. All liabilities, both current and long-term, are reported in the statement of net position. Balances as of December 31, 2014 are:

COUNTY OF NORTHUMBERLAND, PENNSYLVANIA

Reconciliation of the Statement of Revenue, Expenditures, and Changes in Fund Balances- of Governmental Funds to the Statement of Activities For the Year Ended December 31, 2014

Net changes in fund balances, total governmental funds \$ (10,342,066)

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report outlays for capital assets as expenditures because such outlays use current financial resources. In contrast, the Statement of Activities reports only a portion of the outlay as expense. The outlay is allocated over the assets' estimated useful lives as depreciation expense for the period.

Depreciation expense	\$ (2,504,768)	
Capital outlay	<u>2,746,746</u>	241,978

Under the modified accrual basis of accounting used in governmental funds, revenues are not reported until they become available. In the Statement of Activities, however, revenues are recorded regardless of when financial resources are available.

255,111

Governmental funds report repayment of bond and capital lease principal as an expenditure. In contrast, the Statement of Activities treats such repayments as a reduction in long term liabilities.

13,131,275

Pension and other post employment benefit (OPEB) expense reported in the Statement of Activities is recognized on the accrual basis. The net pension and OPEB obligation is adjusted for any difference between OPEB expenses and contributions made in relation to the annual required contribution.

(30,780)

The County uses an Internal Service Fund to charge the costs for workers' compensation. The net income related to this activity is reported with the governmental activities.

106,639

Under the modified accrual basis of accounting used in the governmental funds, expenditures are not recognized for transactions that are not normally paid with expendable available financial resources. In the Statement of Activities, however, which is presented on the accrual basis, expenses and liabilities are reported regardless of when financial resources are available. In addition, interest on long-term debt is not recognized under the modified accrual basis of accounting until due, rather as it accrues. This adjustment combines the net changes of the following balances:

Compensated absences	\$ (616,000)

Notes to the Financial Statements December 31, 2014

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting methods and procedures adopted by the County of Northumberland, Pennsylvania (the “County”) conform to accounting principles generally accepted in the United States of America as applied to governmental entities. The following notes to the financial statements are an integral part of the County’s financial statements:

REPORTING ENTITY

The County of Northumberland is a fifth class county formed on March 21, 1772. The County operates under the direction of an elected Board of Commissioners, and provides the following services: administrative services, tax assessment and collections, judicial, public improvements, public safety, conservation and development, and human service programs. In addition, the County owns and operates the County Prison, and a functioning Emergency 911 Communications center.

The County follows the criteria promulgated by the Governmental Accounting Standards Board (“GASB”) for purposes of determining the scope of its reporting entity.

The financial statements of the County include the accounts of all County operations. As required under accounting principles generally accepted in the United States of America, the financial statements of the reporting entity include those of the County (the primary government) and its component units. The component units, discussed below, are included in the County’s financial reporting entity because of the significance of their operational or financial relationships with the County:

- Northumberland County Authority (the “County Authority,” a public finance authority, included as a blended component unit in the accompanying financial statements);
- Northumberland County Conservation District (the “Conservation District”) (a Pennsylvania conservation district, discretely presented within the accompanying financial statements);
- Northumberland County Industrial Development Authority (the “IDA,” discretely presented within the accompanying financial statements) and;
- Northumberland Anthracite Outdoor Adventure Area Authority (the “AOAA”, a discretely presented component unit in the accompanying financial statements).

The County Authority, Conservation District, IDA, and AOAA did not issue separate financial statements in 2014.

JOINT VENTURES

The County is a participant with the other municipalities in joint ventures that provide services to the constituents of all the participants. The County has no interest in the equity of these organizations. The following is a summary of the significant facts and circumstances for each organization:

<u>Name of Organization</u>	<u>Services Provided</u>	<u>County Participation</u>
Northumberland Montour Airport Commission	Airport Facility Management	One-half of the board of directors
SEDA-COG	Numerous governmental services provided to members	One of eleven counties participating
SEDA-COG Joint Rail Authority	Preserve and foster rail service in Central Pennsylvania	One of eleven counties participating

RELATED ORGANIZATIONS

The Board of County Commissioners is also responsible for appointing the members of the governing boards of other organizations, but the County's accountability for these organizations does not extend beyond making appointments. The County does not designate management nor does it have the ability to significantly influence the operations of these entities. In addition, the County does not supply funding (either directly or as a result of special financing relationships) and has no responsibility for fiscal matters for these entities (i.e., not responsible for deficits or entitled to surpluses, no guarantees of debt, etc.) These organizations include:

GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the non fiduciary activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which, rely, to a significant extent on user fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include: 1) charges to customers or applicants who purchase, use or benefit directly from the goods, services or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as a separate column in the fund financial statements.

MEASUREMENT FOCUS, BASIS OF ACCOUNTING AND FINANCIAL STATEMENT PRESENTATION

The government-wide financial statements are reported using the economic resource measurement focus and the accrual basis of accounting, as are the proprietary funds and fiduciary funds financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

COUNTY OF NORTHUMBERLAND, PENNSYLVANIA

Notes to the Financial Statements December 31, 2014

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

MEASUREMENT FOCUS, BASIS OF ACCOUNTING AND FINANCIAL STATEMENT PRESENTATION (continued)

Amounts paid to acquire capital assets are capitalized as assets in the government-wide financial statements, rather than reported as an expense/expenditure. Proceeds of long-term debt are recorded as liabilities in the government-wide financial statements, rather than as other financing sources. Amounts paid to reduce long-term indebtedness of the reporting government are reported as a reduction of the related liability rather than an expense/expenditure.

Governmental fund financial statements are reported using the current financial resource measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the County considers revenues to be available if they are collected within 365 days of the end of the current fiscal period with the exception of property taxes, which must be received within 60 days of year-end to be deemed available. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. Licenses, operating and capital grants, and interest associated with the current fiscal period are considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to measurable only when the County receives the cash.

Under the current financial resources measurement focus, only current assets and current liabilities are generally included on the balance sheet. The reported fund balance is considered to be a measure of "available spendable resources". Governmental funds operating statements present increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in current assets. Accordingly, they are said to present a summary of sources and uses of "available spendable resources" during the period.

Because of their spending measurement focus, expenditure recognition for governmental fund types excludes amounts represented by noncurrent liabilities.

Since they do not affect net current assets, such long-term amounts are not recognized as governmental fund type expenditures or fund liabilities.

COUNTY OF NORTHUMBERLAND, PENNSYLVANIA

Notes to the Financial Statements December 31, 2014

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

MEASUREMENT FOCUS, BASIS OF ACCOUNTING AND FINANCIAL STATEMENT PRESENTATION (continued)

Amounts expended to acquire capital assets are recorded as expenditures in the year that resources were expended rather than as fund assets. The proceeds of long-term debt are recorded as another financing source rather than a fund liability. However, debt service expenditures related to compensated absences and claims for judgments, are recorded only when payment is due.

The County reports the following major governmental funds:

- The General Fund is the government's primary operating fund. It accounts for all financial revenues of the general government, except those required to be accounted for in another fund. Revenues of this fund are primarily derived from real estate taxes, state and federal grants, and fees for services. Many of the basic activities of the County are accounted for in this fund including operation of general County government, boards, commission, the court systems, and the health and welfare services.
- The Mental Health/Mental Retardation Fund is used to account for specific revenue sources related to the provisions of Mental Health/Mental Retardation services that are restricted to expenditures for those specified purposes.
- The Children and Youth Fund is used to account for specific revenue sources related to the provisions of Children and Youth services that are restricted to expenditures for those specified purposes.
- The Debt Service Fund is used to account for the accumulation of resources for, and the payment of, general long-term debt principal and interest.

The County's enterprise funds are proprietary funds. In the fund financial statements, proprietary funds are presented using the accrual basis of accounting. Revenues are recognized when they are earned and expenses are recognized when the related goods and services are delivered. In the fund financial statements, proprietary funds are presented using the economic resources measurement focus. This means that all assets and all liabilities (whether current or noncurrent) associated with their activity are included on their balance sheets. Proprietary fund type operating statements present increases (revenues) and decreases (expenses) in total net position.

COUNTY OF NORTHUMBERLAND, PENNSYLVANIA

Notes to the Financial Statements December 31, 2014

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

MEASUREMENT FOCUS, BASIS OF ACCOUNTING AND FINANCIAL STATEMENT PRESENTATION (continued)

Proprietary fund operating revenues, such as net patient service revenue and charges for services, result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. Nonoperating revenues, such as subsidies and investment earnings, result from nonexchange transactions or ancillary activities.

Amounts paid to acquire capital assets are capitalized as assets in the fund financial statements, rather than reported as an expense. Proceeds of long-term debt are recorded as a liability in the fund financial statements, rather than as another financing source. Amounts paid to reduce long-term indebtedness are reported as a reduction of the related liabilities, rather than an expense.

Additionally, the County reports the following fund types:

- The Pension Trust Fund-Employee Benefit Plan accounts for the revenue (i.e., member contributions, County contributions, and net investment income) and the expenses (i.e., contributions refunded, retirement allowances and death benefits paid) of the Pension Trust Fund.
- The Agency Funds consist of restricted funds of the various row offices of the County. Agency Funds reported by the County and their respective purpose(s) include:
 - Treasurer Escrow-licenses and permits sold on behalf of the Commonwealth of Pennsylvania;
 - Medical Claims-deposits held for employee medical claims;
 - Tax Claim Escrow-delinquent tax collections held for various taxing districts;
 - Coal Land Royalty-royalties collected on coal extracted held for various taxing districts;
 - Sheriff Escrow-deposits held for Sheriff sales, undisbursed Sheriff sale proceeds, and personal liens;
 - Bid Deposit Escrow-deposits held by County for bid security;
 - Escheats-unclaimed property held for distribution to Commonwealth of Pennsylvania Treasurer;

INTERFUND TRANSACTIONS

Quasi-external transactions are accounted for as revenues, expenditures, or expenses. Transactions that constitute reimbursements to a fund for expenditures/expenses initially made from it that are properly applicable to another fund are recorded as expenditures/expenses in the reimbursing fund and as reductions of expenditures/expenses in the fund that is reimbursed. All other interfund transactions except quasi-external transactions and reimbursements are reported as transfers.

NET POSITION/FUND BALANCES

The government-wide and business-type activities financial statements utilize a net position presentation. Net position are categorized as invested capital assets (net of related debt), restricted and unrestricted.

- *Net Investment in Capital Assets*- This category groups all capital assets, including infrastructure, into one component of net position. Accumulated depreciation and outstanding balances of debt that are attributable to the acquisition, construction, or improvement of these assets reduce the balance in this category.
- *Restricted Net Position*- This category presents external restrictions imposed by creditors, grantors, contributors or laws or regulations of other governments and restrictions imposed by law through constitutional provisions or enabling legislation.
- *Unrestricted Net Position*- This category represents net position of the County, not restricted for any project of other purpose. In the governmental fund financial statements, reserves and designations segregate portions of fund balance that are either not available or have been earmarked for specific purposes. The various reserves and designations are established by actions of the Board of Commissioners and management and can be increased, reduced, or eliminated by similar actions. The proprietary and fiduciary fund financial statements utilized the net position presentation as described above.

NET POSITION/FUND BALANCES (continued)

Nonspendable fund balance reports resources cannot be spent because of their form, or due to legal or contractual requirements. The Debt Service fund has approximately \$7.6 million of nonspendable fund balance as a result of a long term note receivable. Committed fund balance reports resources with self-imposed limitation approved by the Commissioners of the County to the end of the period. Formal action is required to remove or modify a constraint reflected in the committed fund balance. There was one commitment for future debt service payments of \$2 million as of December 31, 2014. Assigned fund balance records the portion of fund balance that reflects the Commissioners' intended use of resources. Assigned fund balance can be established by either the Commissioners or the Chief Financial Officer. Unlike committed fund balance, formal action is not required to impose, remove, or modify assigned fund balance.

ACCOUNTING ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires managements to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

2. BUDGETARY DATA

Formal budgetary accounting is employed as management control for the General Fund, certain Special Revenue Funds, and the Debt Service Fund of the County. Annual operating budgets are adopted each year through the passage of an annual budget ordinance and accounting principles generally accepted in the United States of America are used to complete the budget. The County of Northumberland follows these procedures in establishing the budgetary data reflected in the financial statements:

- (1) During August and September, the department heads use current financial status reports to develop financial projections for their programs for the ensuing year. These financial projections are reviewed with the budget staff.
- (2) The Finance Office reviews and consolidates submitted financial projections and forwards the projections to the Commissioners' Office.
- (3) Upon consolidation of the department and agency expenditure projections, the Commissioners' Office must ascertain the most viable method of financing them.

COUNTY OF NORTHUMBERLAND, PENNSYLVANIA

2. BUDGETARY DATA (continued)

- (4) Subsequently, the Commissioners' Office assembles the preliminary projections of revenues and expenditures into a final budget incorporating any revisions or adjustments resulting from the aforementioned County Commissioners' review.
- (5) By early December, the final budget is presented to the County Commissioners. Pursuant to budgetary requirements, as set forth in the County Code, public notice is given that the proposed budget is available for inspection for a period of 20 days.
- (6) After the 20-day inspection period but no later than December 31, the County Commissioners adopt the final budget by enacting an appropriate ordinance.
- (7) As required by the Commonwealth of Pennsylvania County Code, the proposed budget is made available for public inspection for at least 20 days prior to the date of adoption, with adoption required by December 31. Subsequent to the budget approval, the County Commissioners adopt the appropriation measures required to put the budget into effect and fix the rate of taxation. Within 15 days subsequent to the legal adoption of the budget, the County Commissioners file a copy of the budget with the Department of Community and Economic Development of the Commonwealth of Pennsylvania.

The Commissioners may at any time, by resolution, make supplemental appropriations for any lawful purpose from any funds on hand or estimated to be received within the fiscal year and not otherwise appropriated, including the proceeds of any borrowing now or hereafter authorized by law. The Commissioners may authorize the transfer of any unencumbered balance of any appropriation item or any portion thereof.

For fixed income securities, any one issue shall not exceed 5% of the total bond portfolio at time of purchase (this rule does not apply to issues of the U.S. Treasury or other federal agencies). 7. OPERATING LEASES

The County leases building space for certain County offices, equipment, and District Justices' offices. All these leases are classified as operating leases with expiration dates extending through 2016. Lease expenditures for the year ended December 31, 2014 approximated \$1.9 million

The following is a schedule of future minimum lease payments for operating leases with initial or remaining terms in excess of one year as of December 31, 2014:

<u>Years Ending December 31,</u>	<u>Lease Payments</u>
2015	\$ 717,855
2016	718,165
2017	706,481

8. COMPENSATED ABSENCES

VACATION PAY

Time accrues at various rates based on length of service. Employees are encouraged to utilize earned vacation time by December 31 of each period; however, current practice allows for the carryover of 55 unused vacation days to the subsequent calendar year. Time carried over in this manner is considered vested.

SICK PAY

Employees earn 1 1/4 sick days for each month of service or 15 days per year. Current practice allows for the accumulation of unused sick days to be paid at retirement if the employee meets either of the applicable vesting requirements: Age 55 with 20 or more years of credited service to the County or Age 60

Applicable GASB pronouncements require accrual of sick and vacation pay that meet certain specific conditions. The County has determined that such conditions apply to vested vacation pay and accumulated sick pay of Governmental Funds and the Proprietary Fund. The County has accrued a liability for vacation and sick pay in financial statements at the fund level for the Proprietary Fund and in the Governmental and Business Type Activities in government-wide financial statements.

COUNTY OF NORTHUMBERLAND, PENNSYLVANIA

9. INTERFUND RECEIVABLES AND PAYABLES

Interfund receivable and payable balances consist of the following at December 31, 2014:

	<u>Due from Other Funds</u>	<u>Due to Other Funds</u>
Governmental funds		
General Fund	\$ 1,622,464	\$ 3,236,481
Special revenue/non-major	<u>3,250,866</u>	<u>1,636,849</u>
Total	<u>\$ 4,873,330</u>	<u>\$ 4,873,330</u>

The County utilizes a pooled operating fund to enhance investment return; therefore, interfund receivables and payables are recorded to recognize amounts held by the General Fund in the pooled amount on behalf of other funds. In addition, the General Fund has paid expenses on behalf of other funds; therefore, a corresponding interfund receivable and payable has been recorded.

10. INTERFUND OPERATING TRANSFERS

Interfund transfers are executed as a result of the requirements for the General Fund to "match" a portion of the expenditures or expenses of other funds. Interfund operating transfers for such purposes are as follows:

	<u>Transfers From Other Funds</u>	<u>Transfers to Other Funds</u>
Governmental funds		
General Fund	\$ 891,066	\$ 4,090,427
Special revenue/non-major	<u>4,144,109</u>	<u>944,748</u>
Total	<u>\$ 5,035,175</u>	<u>\$ 5,035,175</u>

11. RISK MANAGEMENT

The County is exposed to risk of loss related to self-insurance activities for workers' compensation, medical, and prescription drug claims. The County records the liability for the risk associated with the County's self-insurance activities in the Internal Service Fund.

WORKERS' COMPENSATION

The County self-insures its Workers' Compensation claims and has established a trust account (the "Workers' Compensation Trust") with a local bank to fund its workers' compensation liabilities. Under this program, the Workers' Compensation Trust provides coverage for up to a maximum of \$400,000. The County purchases commercial insurance for claims in excess of coverage provided by the Fund. There have been no changes in insurance coverages, retention limits or excess loss policies from the prior year. Settled claims have not exceeded this commercial coverage since inception.

The County establishes claims liabilities for its self-insured workers' compensation based on the requirements of GASB No. 30, which requires that a liability for claims be reported if information prior to the issuance of the financial statements indicates that it is probable that a liability has been incurred at the date of the financial statements and the amount of loss can be reasonably estimated. Because actual claims costs depend on such complex factors as inflation, changes in doctrines of legal liability, and damage awards, the process used in computing claims liabilities does not necessarily result in exact amounts. Claims liabilities are recomputed periodically using a variety of actuarial and statistical techniques to produce current estimates that reflect recent settlements, claim frequency, and other economic and social factors. A provision for inflation in the calculation of estimated future claim costs is implicit in the calculation because reliance is placed both on actual historical data that reflect past inflation and on other factors that are considered to be appropriate modifiers of past experience. Adjustments to claims liabilities are charged or credited to revenue in the periods in which they are made. Such claims are not discounted.

The following summary provides aggregate information on self-insurance liabilities, incurred claims, and payments during the years ended December 31, 2014 and 2013, and reported self-insurance liabilities as of December 31, 2014 and 2013.

	<u>Liability, beginning of year</u>	<u>Incurred claims and changes in estimate</u>	<u>Benefit payments</u>	<u>Liability, End of year</u>
2014	\$ 187,233	\$ 241,561	\$ (225,851)	\$ 202,943
2013	160,000	148,537	(121,304)	187,233

12. EMPLOYEES RETIREMENT PLAN

The Employees' Retirement Trust Fund Plan (the "Plan") is a contributory defined benefit single employer retirement plan covering all County employees, except those hired on a part-time basis. The Plan is included in the accompanying financial statements of the County as a pension trust fund. The financial statements of the Retirement Trust Fund are prepared on the accrual basis of accounting. Plan members and employer contributions to the Plan are recognized in the period in which the contributions are due. Benefits and refunds are recognized when due and payable in accordance with the terms of the Plan.

As of December 31, 2014, the date of the latest valuation, employees covered by the Plan consisted of the following:

Active plan members	502
Retirees and beneficiaries currently receiving benefits	672
Terminated employees entitled to benefits	<u>102</u>
Total	<u><u>1,276</u></u>

INVESTMENTS

All investments of the pension trust fund are reported at fair value. Securities traded on a national level are valued at the last reported sales price at current exchange rates. Real estate assets are reported at fair value utilizing an income approach to valuation. By contract, an independent appraisal is obtained once every year to determine the fair market value of real estate assets.

CONTRIBUTIONS

Employees are required to contribute a portion of their salaries (5% of earnings in 2014) to the Plan and employees can elect to contribute up to 15% of their salaries. Per Act 96 of 1971, contribution requirements of the Plan members and the County may be amended by the General Assembly of the Commonwealth of Pennsylvania. Interest is credited each year in an amount allowed by the County Retirement Board to each member's account. Administrative costs of the Plan are financed through investment earnings. The Plan's funding policy provides for periodic employer contributions at actuarially determined rates that, expressed as percentages of annual covered payroll, are sufficient to accumulate assets to pay benefits when due. Level percentages of payroll employer contribution rates are determined using the aggregate actuarial cost funding method.

COUNTY OF NORTHUMBERLAND, PENNSYLVANIA

Notes to the Financial Statements December 31, 2014

12. EMPLOYEES RETIREMENT PLAN (continued)

The annual required contribution was determined based on the most recent annual actuarial valuation dated January 1, 2014. The entry age actuarial cost method of funding was used in the valuation, which does not identify and separately amortize unfunded actuarial liabilities. Significant actuarial assumptions used include (a) a rate of return on the investment of present and future assets of 7.50% per year compounded annually; (b) projected salary increases of 3.50% per annum; and (c) no postretirement benefit increases. Both (a) and (b) include an inflation component based on 3%. The method used to determine the actuarial value of assets is a five- year smoothed market.

INVESTMENTS

The table below summarizes the target asset class assumed rates of return:

<u>Investment Type</u>	<u>Target Allocation</u>
Domestic Equity	40-80%
International Equity	40-80%
Fixed Income	20-60%
Real estate	0-10%
Cash	0-5%

ANNUAL PENSION COST

The County's annual pension cost and net pension obligation for the current year were calculated as follows:

Annual required contribution	\$ 1,119,176
Interest on net pension obligation	5,860
Adjustment to annual required contribution	<u>10,513</u>
Annual pension cost	1,135,549
Contributions made	<u>1,135,549</u>

ACTUARIAL ASSUMPTIONS

The Plan had the following actuary assumptions and methods:

Amortization Method	Level Dollar
Mortality	RP-2013 Annuitant and Non-Annuitant Tables for Males and Females
Asset Valuation Method	Fair Value
Actuarial Assumptions	
Investment rate of return	7.50%

NET PENSION LIABILITY

The net pension liability is equal to the total pension liability minus the net position of the plan. The result as of December 31, 2014 was as follows:

Total pension liability	\$ 85,156,279
Net position	<u>81,002,468</u>
Net pension liability	<u>\$ 4,153,811</u>

Net position as a percentage of total pension liability	95.1%
---	-------

SENSITIVITY OF THE NET PENSION LIABILITY TO CHANGES IN THE DISCOUNT RATE

The net pension liability of the plan, calculated using a discounted rate of 7.50%: is \$4,153,811. The plan's net pension liability would be if it were calculated using a discounted rate that is 1-percentage point lower, 6.50%: of \$11,458,422. The plan's net pension liability if the discount rate was 1-percentage higher, 8.50% is a negative \$2,532,237.

13. OTHER POSTEMPLOYMENT BENEFITS

PLAN DESCRIPTION

The County's Retiree Health and Welfare Benefit Plan (the "Plan") is a single- employer defined benefit plan administered by the County. The Plan provides postemployment benefits to eligible retirees. The County pays eligible retirees \$100 for each year of service rendered to the County (minimum of 20 years) to offset the employees cost of purchasing health insurance after retirement. The Plan is unfunded and no financial report is prepared. The Plan is authorized and under the control, maintenance and operation of the County Commissioners. During the year ended December 31, 2012, the Plan was amended to make non-union employees hired after June 26, 2012 no longer eligible to participate in the Plan.

COUNTY OF NORTHUMBERLAND, PENNSYLVANIA

Notes to the Financial Statements December 31, 2014

13. OTHER POSTEMPLOYMENT BENEFITS (continued)

FUNDING POLICY

Plan members do not contribute to the plan, the County pays 100% of the cost of coverage for retired covered employees. The required contribution is based on pay-as-you-go financing requirements. The County Commissioners have the authority to amend the plan including changing the obligations of the plan members and the County to contribute to the plan.

ANNUAL OPEB COST AND NET OPEB OBLIGATION

The County's annual other postemployment benefit ("OPEB") cost (expense) is calculated based on the annual required contribution of the employer ("ARC"), an amount actuarially determined in accordance with the parameters of GAAP. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed 30 years. The following shows the components of the County's annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the County's net OPEB obligation:

Annual required contribution	\$ 419,777
Interest on net OPEB obligation	32,920
Adjustment to annual required contribution	<u>47,600</u>
Annual OPEB cost	500,297
Contributions made	<u>469,517</u>
Increase in net OPEB obligation	30,780
Net OPEB obligation, beginning of year	<u>823,161</u>
Net OPEB obligation, end of year	<u>\$ 853,941</u>

The net OPEB obligation is recorded as an expense within the accompanying statement of activities within the general government function in the amount of \$30,780

13. OTHER POSTEMPLOYMENT BENEFITS (continued)

The County's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for December 31, 2014 were as follows:

<u>Years Ended December 31,</u>	<u>Annual OPEB Cost</u>	<u>Annual OPEB Cost Contributed</u>	<u>Net OPEB Obligation</u>
2014	\$ 500,297	93.4%	\$ 853,941
2013	502,523	93.4%	823,161
2012	504,896	94.2%	789,994

FUNDED STATUS AND FUNDING PROGRESS

The funded status of the Plan as of January 1, 2014, per the January 1, 2014 actuarial valuation, the most recent actuarial valuation date, was as follows:

<u>Actuarial Valuation Date</u>	<u>Actuarial Value of Plan Assets (a)</u>	<u>Actuarial Accrued Liability (b)</u>	<u>Total Unfunded Actuarial Liability (asset) (c)</u>	<u>Funded Ratio (a)/(b)</u>	<u>Annual Covered Payroll (d)</u>	<u>Ratio of Unfunded Liability to Annual Covered Payroll ((b- a)/d)</u>
1/1/2014	\$ -	\$ 7,056,624	\$ 7,056,624	0.0%	\$ 17,243,020	40.9%
1/1/2013	-	7,048,865	7,048,865	0.0%	17,436,210	40.4%
1/1/2012	-	7,153,256	7,153,256	0.0%	16,708,408	42.8%

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the health care cost trends. Actuarial amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

COUNTY OF NORTHUMBERLAND, PENNSYLVANIA

Notes to the Financial Statements December 31, 2014

13. OTHER POSTEMPLOYMENT BENEFITS (continued)

ACTUARIAL METHODS AND ASSUMPTIONS

The calculations are based on the types of benefits provided under the terms of the substantive plan at the time of valuation and on the pattern of cost sharing between the employer and plan members. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations on the pattern of cost sharing between the employer and plan members in the future. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the January 1, 2014 actuarial valuation, the projected unit credit method was used. The actuarial assumptions included a 7.5% investment rate of return, which is the expected rate to be earned on the County's deposits. The Unfunded Actuarial Accrued Liability is being amortized using the level dollar open method of projected payroll. Projected salary increases include inflation at 3.5%. The remaining amortization period at January 1, 2014 was 27 years.

14. COMMITMENTS AND CONTINGENCIES

LITIGATION

In the normal course of business, there are various claims and suits pending against the County and its elected officials. Management is of the opinion that these matters will not have a material adverse effect on the County's financial position as of December 31, 2014.

GRANTS

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures that may be disallowed by the grantor cannot be determined at this time although the County expects such amounts, if any, to be immaterial.

COUNTY OF NORTHUMBERLAND, PENNSYLVANIA

Notes to the Financial Statements December 31, 2014

15. PENDING ACCOUNTING PRINCIPLES

The Governmental Accounting Standards Board (GASB) issued Statement No. 67, Financial Reporting for Pension Plans- an Amendment of GASB No. 25, effective for the year ended December 31, 2014. The County implemented GASB 67 during the year ended December 31, 2014 with no material effect to the financial statements.

GASB issued GASB 68, Accounting and Financial Reporting for Pension Plans in June 2012 effective for the year ended December 31, 2015. The County expects that implementation of GASB 68 will result in a reduction of Net Position of approximately \$4.2 million. The County will implement this statement in the year ended December 31, 2015.

As of the year ended December 31, 2014, GASB issued Statement No. 72, entitled Fair Value Measurement and Application; Statement No. 73, entitled Accounting and Financial Reporting for Pensions and Related Assets That are Not within the Scope of GASB Statement 68, and Amendments to certain Provisions of GASB Statements 67 and 68; GASB Statement No. 74 entitled, Financial Reporting For Postemployment Benefit Plans Other Than Pension Plans; GASB Statement No. 75 entitled, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions; GASB Statement No. 76 entitled, The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments. These statements may have a material effect on the County's financial statements once implemented. The County will be analyzing the effects of these pronouncements and plans to adopt them as applicable by their effective date.

16. SUBSEQUENT EVENTS

Subsequent to December 31, 2014, the County had two debt issuances for \$1,035,000 and \$10,000,000, respectively.
